d. During the reporting period, initial arrangements were made to have all Agency employees rephotographed in connection with a proposed overall rebadging program. The rephotographing began in June 1969 and will be completed in November 1969.

e. In November 1968 a Guard Post was activated at Gate #4 (West Lot) to expedite the flow of traffic from the Headquarters compound. During rush hours West Lot traffic may now exit through Bureau of Public Roads property to Route 193 which has significantly reduced the congestion at Gate #1 during the morning and evening rush hours.

f. Portable closed-circuit television systems were established at Gates #1 and #3 to provide a capability to monitor the area in the event of an emergency or civil disorder.

g. Thirty-two contract employees were employed during the year to escort non-cleared contractor personnel engaged in the construction, maintenance, and repair of Agency facilities.

h. A contact alarm was installed at Gate #3 to alert the Security Duty Office in the event of tampering by accident or design with the gate during the evening hours when it is secured.
